RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

In the action mailed January 11, 2005, the Examiner determined that the amended claims filed in response to the first Office Action on the merits are directed to six (6) patentably distinct species, as follows: Species I (Fig. 12); Species II (Fig. 13); Species III (Fig. 14); Species IV (Fig. 15); Species V (Fig. 16); and Species VI (Fig. 17). The Examiner accordingly imposed a restriction/election requirement, requiring applicant to elect one of the designated species.

In response to the restriction/election requirement, applicant elects Species IV (Fig. 15). This election is made without traverse.

The following claims read on the elected species: 1-3, 9, 12-17, 20, 21, 23, 26-34, and 39-41.

The Examiner has determined that Claim 1 is generic to all species. Applicant contends that the following claims are also generic: 14-17, 20, 28-34, and 39-41.

It is noted that this application was filed on January 11, 2002, and has thus been pending more than three years. A first Office Action on the merits was mailed on July 20, 2004, and a

response was mailed on October 20, 2004. An expeditious examination of the elected claims is therefore earnestly solicited.

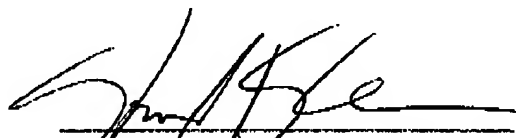

It is respectfully submitted, as discussed in applicant's amendment mailed October 20, 2004, that all of the pending claims, as amended, are allowable over the art of record. Should any of the generic claims be allowed, an examination on the merits of the claims directed to the non-elected species is respectfully requested.

The examiner is respectfully requested to telephone the undersigned attorney if there are any issues that may be more expeditiously resolved by a telephonic interview.

In summary, an expeditious examination of claims 1-3, 9, 12-17, 20, 21, 23, 26-34, and 39-41 is respectfully requested, and upon the allowance of any of the above-noted generic claims, applicant respectfully requests the examination of the remaining claims, directed to the non-elected species.

Respectfully submitted,

Date: January 28, 2005
